Contents

NUMBER 1

- 1 *J. Halfar, W. Riegel and H. Walther.* Facies architecture and sedimentology of a meandering fluvial system: a Palaeogene example from the Weissester Basin, Germany
- 19 *S. D. Vanstone.* Late Dinantian palaeokarst of England and Wales: implications for exposure surface development
- 39 *C. T. Perry.* Grain susceptibility to the effects of micro-boring: implications for the preservation of skeletal carbonates
- 53 *W. R. Normark, D. J. W. Piper and R. N. Hiscott.* Sea level controls on the textural characteristics and depositional architecture of the Hueneme and associated submarine fan systems, Santa Monica Basin, California
- 71 *P. W. G. Tanner.* Interstratal dewatering origin for polygonal patterns of sand-filled cracks: a case study from late Proterozoic metasediments of Islay, Scotland
- 91 *A. Ruffell and G. Wach.* Firmgrounds-key surfaces in the recognition of parasequences in the Aptian Lower Greensand Group, Isle of Wight (southern England)
- 109 *C. Li, B. Jones and W. B. C. Kalbfleisch.* Carbonate sediment transport pathways based on foraminifera: case study from Frank Sound, Grand Cayman, British West Indies
- 121 *C. H. Eyles, N. Eyles and V. A. Gostin.* Facies and allostratigraphy of high-latitude, glacially-influenced marine strata of the Early Permian southern Sydney Basin, Australia
- 163 *L. Guo and R. Riding.* Hot-spring travertine facies and sequences, Late Pleistocene, Rapolano Terme, Italy
- 181 *S. van Heteren, D. M. Fitzgerald, P. A. McKinlay and I. V. Buynevich.* Radar facies of paraglacial barrier systems: coastal New England, USA
- 201 *Yu. V. Rostovtseva and M. N. Shapiro.* Provenance of the Palaeocene-Eocene clastic rocks of the Komandorsky Islands

DISCUSSION/REPLY

- 217 *J. H. Van Den Berg and A. Van Gelder.* Flow and sediment transport over large subaqueous dunes: Fraser River, Canada
- 219 *R. Kostashuk and P. Villard.* Reply
- 222 Forthcoming papers

NUMBER 2

- 223 *P. A. Scholte, T. Albrechtsen and H. Tirsgaard.* Formation and diagenesis of bedding cycles in uppermost Cretaceous chalks of the Dan Field, Danish North Sea
- 245 *M. A. M. Aref.* Holocene stromatolites and microbial laminites associated with lenticular gypsum in a marine-dominated environment, Ras El Shetan area, Gulf of Aqaba, Egypt
- 263 *F. H. Lu and W. J. Meyers.* Massive dolomitization of a late Miocene carbonate platform: a case of mixed evaporative brines with meteoric water, Nijar, Spain
- 279 *J. P. Calvo, M. Rodriguez-Pascua, S. Martin-Velazquez, S. Jimenez and G. de Vicente.* Microdeformation of lacustrine laminites sequences from Late Miocene

formations of SE Spain: an interpretation of loop bedding

- 293 *G. Ollier, P. Cochonat, J. F. Lénat and P. Labazuy.* Deep-sea volcanoclastic sedimentary systems: an example from La Fournaise volcano, Réunion Island, Indian Ocean
- 331 *P. D. Falk and R. J. Dorsey.* Rapid development of gravelly high-density turbidity currents in marine Gilbert-type fan deltas, Loreto Basin, Baja California Sur, Mexico
- 351 *A. J. Hartley and G. May.* Miocene Gypcretes from the Calama Basin, northern Chile
- 365 *S. A. Morris, N. H. Kenyon, A. F. Limonov and J. Alexander.* Downstream changes of large-scale bedforms in turbidites around the Valencia channel mouth, north-west Mediterranean: implications for palaeoflow reconstruction
- 379 *B. G. Anderson and M. L. Droser.* Ichnofabrics and geometric configurations of *Ophiomorpha* within a sequence stratigraphic framework: an example from the Upper Cretaceous US western interior
- 397 *M. G. Hughes, P. T. Harris and T. C. T. Hubble.* Dynamics of the turbidity maximum zone in a micro-tidal estuary: Hawkesbury River, Australia
- 411 *D. G. Masson, M. Canals, B. Alonso, R. Urgeles and V. Huhnerbach.* The Canary Debris Flow: source area morphology and failure mechanisms
- 433 *H. Qing.* Petrography and geochemistry of early-stage, fine- and medium-crystalline dolomites in the Middle Devonian Presqu'île Barrier at Pine Point, Canada

NUMBER 3

- 449 *C. W. Rhee, H. R. Jo and S. K. Chough.* An allostratigraphic approach to a non-marine basin: the north-western part of Cretaceous Kyongsang Basin, SE Korea
- 473 *A. Vecsei.* Bioclastic sediment lobes on a supply dominated Upper Cretaceous carbonate platform margin, Montagna della Maiella, Italy
- 489 *K. Krainer and C. Spötl.* Abiogenic silica layers within a fluvio-lacustrine succession, Bolzano Volcanic Complex, northern Italy: a Permian analogue for Magadi-type cherts?
- 507 *J. B. J. Harrison and A. Yair.* Late Pleistocene aeolian and fluvial interactions in the development of the Nizzana dune field, Negev Desert, Israel
- 519 *A. Sánchez-Navas, A. Martín-Algarra and F. Nieto.* Bacterially-mediated authigenesis of clays in phosphate stromatolites
- 535 *P. Freytet and E. P. Verrecchia.* Freshwater organisms that build stromatolites: a synopsis of biocrystallization by prokaryotic and eukaryotic algae
- 565 *T. M. Peryt, C. Pierre and S. P. Gryniv.* Origin of polyhalite deposits in the Zechstein (Upper Permian) Zdrada platform (northern Poland)
- 579 *M. El Tabakh, B. C. Schreiber, C. Utha-Aroon, L. Coshell and J. K. Warren.* Diagenetic origin of Basal Anhydrite in the Cretaceous Maha Sarakham salt: Khorat Plateau, NE Thailand
- 595 *M. R. Gibling, G. C. Nanson and J. C. Maroulis.* Anastomosing river sedimentation in the Channel Country of central Australia
- 620 Forthcoming papers

NUMBER 4

- 621 Editorial
- 623 *J. Grötsch, I. Billing and V. Vahrenkamp*
Carbon-isotope stratigraphy in shallow-water carbonates: implications for Cretaceous black-shale deposition
- 635 *B. Bock, S. M. McLennan and G. N. Hanson*
Geochemistry and provenance of the Middle Ordovician Austin Glen Member (Normanskill Formation) and the Taconian Orogeny in New England
- 657 *C. W. Harper*
Thickening and/or thinning upward patterns in sequences of strata: tests of significance
- 697 *F. Orti, C. Helvacı, L. Rosell and I. Gündogan*
Sulphate-borate relations in an evaporitic lacustrine environment: the Sultançayır Gypsum (Miocene, western Anatolia)
- 711 *D. Krinsley*
Models of rock varnish formation constrained by high resolution transmission electron microscopy
- 727 *P. Nielsen, R. Swennen, Ph. Muchez and E. Keppens*
Origin of Dinantian zebra dolomites south of the Brabant-Wales Massif, Belgium
- 745 *J. I. Lee and Y. I. Lee*
Feldspar albitization in Cretaceous non-marine mudrocks, Gyeongsang Basin, Korea
- 755 *M. Borre and I. Fabricius (Lind)*
Chemical and mechanical processes during burial diagenesis of chalk: an interpretation based on specific surface data of deep-sea sediments
- 771 *L. Bombardiere and G. E. Gorin*
Sedimentary organic matter in condensed sections from distal oxic environments: examples from the Mesozoic of SE France
- 789 *K. R. Rasmussen and H. E. Mikkelsen*
On the efficiency of vertical array aeolian field traps
- 801 Forthcoming Papers

NUMBER 5

- 803 *J. T. Liu, P. B. Yuan and J.-J. Hung*. The coastal transition at the mouth of a small mountainous river in Taiwan
- 817 *D. Lavoie and E. Asselin*. Upper Ordovician facies in the Lac Saint-Jean outlier, Québec (eastern Canada): palaeoenvironmental significance for Late Ordovician oceanography
- 833 *C. Gladstone, J. C. Phillips and R. S. J. Sparks*. Experiments on bidisperse, constant-volume gravity currents: propagation and sediment deposition
- 845 *P. Muchez, P. Nielsen, M. Sintubin and D. Lagrou*. Conditions of meteoric calcite formation along a Variscan fault and their possible relation to climatic evolution during the Jurassic-Cretaceous
- 855 *M. El Tabakh and B. C. Schreiber*. Diagenesis of the Newark Rift Basin, Eastern North America
- 875 *S. W. Poullton, S. H. Bottrell and C. J. Underwood*. Porewater sulphur geochemistry and fossil preservation

during phosphate diagenesis in a Lower Cretaceous shelf mudstone

- 889 *A. Kasprzyk and F. Orti*. Palaeogeographic and burial controls on anhydrite genesis: the Badenian basin in the Carpathian Foredeep (southern Poland, western Ukraine)
- 909 *L. H. Blikra and W. Nemeček*. Postglacial colluvium in western Norway: depositional processes, facies and palaeoclimatic record

DISCUSSIONS/REPLY

- 961 *R. Higgs*. Discussion. Return of 'The Fan That Never Was': Westphalian turbidite systems in the Variscan Culm Basin: Bude Formation (south-west England)
- 967 *H. G. Reading*. Discussion
- 970 *R. V. Burne*. Reply
- 976 Forthcoming Papers

NUMBER 6

- 977 *J. Bridge, R. Collier and J. Alexander*. Large-scale structure of Calamus River deposits (Nebraska, USA) revealed using ground penetrating radar
- 987 *K. A. Jenner and P. R. Hill*. Recent, arctic deltaic sedimentation: Olivier Islands, Mackenzie Delta, North-west Territories, Canada
- 1005 *L. Coshell, M. R. Rosen and K. J. McNamara*. Hydro-magnesite replacement of biomineralized aragonite in a new location of Holocene stromatolites, Lake Walyungup, Western Australia
- 1019 *C. Spötl, F. J. Longstaffe, K. Ramseier, M. J. Kunk and R. Wiesheu*. Fluid-rock reactions in an evaporitic mélange, Permian Haselgebirge, Austrian Alps
- 1045 *K. Sugitani, K. Yamamoto, M. Adachi, I. Kawabe and R. Sugisaki*. Archean cherts derived from chemical, biogenic and clastic sedimentation in a shallow restricted basin: examples from the Gorge Creek Group in the Pilbara Block
- 1063 *A. Travé, F. Calvet, A. Soler and P. Labaume*. Fracturing and fluid migration during Palaeogene compression and Neogene extension in the Catalan Coastal Ranges, Spain
- 1083 *R. W. Renaut, B. Jones and J.-J. Tiercelin*. Rapid *in situ* silicification of microbes at Loburu hot springs, Lake Bogoria, Kenya Rift Valley
- 1105 *C. A. Williams and F. F. Krause*. Pedogenic-phreatic carbonates on a Middle Devonian (Givetian) terrigenous alluvial-deltaic plain, Gilwood Member (Watt Mountain Formation), northcentral Alberta, Canada
- 1125 *M. Honda and H. Shimizu*. Geochemical, mineralogical and sedimentological studies on the Taklimakan Desert sands
- 1144 Author index
- 1145 Forthcoming Papers
- 1146 Acknowledgments
- 1147 International Association of Sedimentologists statement of dues 1999
